Hospitality

Flooid Solutions bring harmony to your hospitality operations by aligning table management, orders, inventory, and cash on one platform

Flooid Solutions for Hospitality has been packaged specifically to address the needs of the global marketplace. Control one centralised global system, across multiple restaurant concepts and menus, offer global customer loyalty programs, operate in multiple languages with multiple currencies and taxation, and enjoy the advantage of reduced overall implementation and operational costs through cloud deployment.

Flooid Solutions for Hospitality is a hardware and operating system agnostic point-of-service solution that works seamlessly alongside grocery, specialty and general merchandise formats - ideal for single reports and a single view of the customer. Feature rich capabilities include:

- CapEx and OpEx savings via the Cloud
- Point-of-Service
- Stock & inventory
- Purchasing
- Back office

- Central maintenance
  – Prices
  – Promotions
  – POS menus
  – Devices
  – Product data

- In-session table management

- Customised menus

- Targeted kitchen ticketing

- Cash office including cash-in session

- Tabs that follow customers

- Multiple tender types
  – Per-seat ordering
  – Quantity
  – Split the bill

Save time and money

With Flooid Solutions for Hospitality, inventory counts and ordering is simpler. Wastage is minimised, and accuracy enhanced. Enjoy real-time spot checks and one-click suggested procurement. Take orders and payment at the table with a thick client mobile device that mirrors all fixed point-of-service capabilities.

A single platform personalised to your estate

Tailor your point-of-service and kitchen ticketing options and receive real-time updates. Change menu layouts to suit your promotions and your staff. Use bar, restaurant, quick service and drive-thru modes within the same site. And enjoy seamless local variation and multiple menu concepts within one global reporting tool. This is all made easier and the savings even greater when deployed to the Cloud.

Integrations

Flooid is hardware and operating system agnostic. It integrates with industry-leading kitchen management, quick service restaurant, recipe, and menu providers. Choose Flooid to build capabilities while lowering cost of ownership and maintaining a single system across all formats within your store estate.
