

Point-of-service

Point-of-sale possibilities. Made personal by Flooid. Modern POS starts with a unified commerce platform, purpose built for your retail evolution.

Transform your point-of-sale into a customer-centric point-of-service. Deliver a seamless, personalised shopping experience with Flooid's fully managed, scalable, and cloud-native platform.

One platform. Endless possibilities.

Flooid's composable platform powers rich point-of-sale capabilities across every retail format—grocery, convenience, fuel, fashion, specialty, discount, department store, hospitality, and more. With our single unified code base, you can tap into all available capabilities and roll out the right mix of endpoint solutions anywhere in your estate.

Built specifically for retailers, our platform integrates effortlessly with omnichannel solutions to create a unified, flexible shopping journey.

Delight shoppers with:

- A mix of POS, MPOS, self-checkout, and convertible lanes
- Personalised promotions, offers, and loyalty programs
- Connected commerce experiences—online, via channels and in-store

Empower retailers with:

- Robust, centralised back-office management
- Cloud first - secure, reliable, world class infrastructure
- Multi-company support for franchise environments
- Improved store efficiency, associate productivity, and reduced loss

flooid
a GLORY company

Flooid's point-of-service delivers consistent fulfilling customer experiences across multiple formats, channels, territories and customer journeys.

CEO, Flooid

Hardware freedom. Future-proof flexibility.

Flooid's platform is operating system and hardware agnostic—perfect for mixed estates. Extend the life of your hardware and choose what works best for your business.

Composable. Scalable. Ready for what's next.

Our platform grows with you—online and in-store. With fast-start configurations, micro front-end architecture, and Java-based flexibility. Flooid integrates with leading third-party solutions via our robust API suite. From global tech leaders to local specialists, we partner to give you a competitive edge.

Superior end-user experience

Our intuitive, role-driven interface reduces training time and eliminates frustration—so your associates can focus on what matters: the customer.
